hey terri,
thanks for the response although i can't find any attachment.
please resend that.
also, can you identify the well pads and compressor stations tested or
at least how many were tested/
and was the testing done in response to local resident complaints?
thanks
don

> Attached is an EPA letter to Cabot Oil & Gas explaining the basis and goals of EPA's investigation in Dimock. As stated
in the letter, our actions in Dimock reflect our longstanding responsibility under federal environmental laws to address
threats to public health. The agency's investigation in Dimock is focused solely on water quality in residential wells.
>
> In Washington County, Pa., EPA has conducted inspections at active industrial operations including well pads and
compressor stations. These inspections were done as part of our multi-media enforcement program, which develops
comprehensive approaches to address complex and emerging environmental problems. Multi-media inspections are
conducted in various industrial sectors to determine their compliance with multiple federal environmental laws including for
air, water and hazardous waste.
